KLEINWALSERTAL TOURS

SKI TOUR FROM SCHWENDLE TO THE OCHSENLOCH

HARD SKI TOURING

TOUR DESCRIPTION

Everything you wish for in a ski tour: With almost 1000 meters of altitude gain, the ascent is athletic and challenges your fitness. **Far from ski operations**, you immerse yourself in the tranquility of winter. Once there, a wonderful view into Kleinwalsertal to the **Heuberggrat & Hohen Ifen** awaits you. And finally, you are rewarded with a great descent.
The Wildental is also popular with winter hikers in winter. Especially on the first section up to just before the Inner Wiesalpe, a bit more consideration for other winter sports enthusiasts is asked for during ascent and descent. Then there is enough space and enjoyment of nature for everyone.
Experience nature consciously stands for respectful coexistence among winter sports enthusiasts and towards nature. The described route takes into account the **designated wildlife refuges and forest-wildlife protected areas** in Wildental.

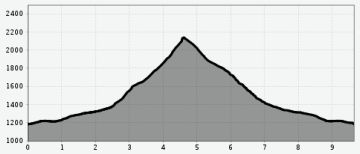

ROUTE DESCRIPTION

Ascent
The ascent starts from the Schwendle bus stop/parking lot. Along the winter hiking trail into the Wildental, we reach the Wiesalpe. From here, we follow the summer hiking trail (not prepared in winter) until shortly before the Fluchtalp. Then continue straight ahead towards the waterfall, shortly before the forested area we cross the meadow to the right, now we stand at the foot of the Elferkopf. We follow the slightly visible path (summer hiking trail) along the forest edge towards the waterfall. The forest path leads us to the Hintere Wildenalpe, from here we go left past the hill to the beginning of the middle & southern Schafalpenkopf. Through the cirque of the Ochsenloch we reach the notch directly (Caution! Only enter the cirque under the best conditions - avalanche danger!).
Descent
After the cirque, we turn ski/snowboard to the right (Not straight ahead - rock slopes and forest!) and pass below the middle & northern Schafalpenkopf until we reach the front Wildenalpe. Along the summer hiking trail, we reach the Fluchtalpe and enjoy the last slope. The summer hiking trail is easy to find (from the front Wildenalpe), we keep to the right and wind through the forest corridors.

RECOMMENDED EQUIPMENT

Off marked and secured pistes and paths, everyone is responsible for their own safety and must inform themselves about alpine hazards, especially avalanche danger . Weather conditions and snow situations may require changes in the route.
The provided GPS track is merely a suggestion. No liability can be assumed for the accuracy of the information.
EMERGENCY NUMBERS:

↔ Distance	9.64 KM
Duration	3:45 H
Altitude meters	1018 M
Highest point	2194 M

Best season

JAN	FEB	MAR	APR	MAI	JUN
JUL	AUG	SEP	OCT	NOV	DEC

Sart: Mittelberg, Schwendle
Goal: Mittelberg, Schwendle
